

Tenuta di Sipio

L&L Luce&Light · Manufacturers

Set amid the olive groves and vineyards of the Abruzzo hills is the Tenuta di Sipio, an Abruzzo farm estate that retains the rural charms of a bygone time. The venue is available for private events, and part of the structure has recently undergone a renovation that has used bioclimatic architectural principles to transform an anonymous agricultural building into an exclusive restaurant.

The structural and lighting design was entrusted to the architect Rocco Valentini, who has

a play of chiaroscuro and soft lighting, they create an elegant, warm and intimate atmosphere that harmonises with the beauty of the gardens visible through the large glazed windows.

Outside, the swimming pool is lit by **Moby 2.1** underwater recessed fixtures. With their 16-mm-thick glass cover and vitrified serigraphy, these provide maximum impact resistance while blending into the pool's lining to disappear from view and leave only their light output visible.
